Information for Private equity firms

Whether you are a venture capital firm, a growth finance investor or a buy-out fund, whether you are a German or a foreign company – BVK is the right partner for you in matters relating to a multitude of target groups in Germany. We represent the interests of the German private equity industry. Our membership now includes 215 capital investment companies. Together with the consultants and institutional investors in our association, BVK has more than 300 members.

BVK strives to attain the best possible conditions for its members' work in Germany. This is however based on creating an understanding of the industry's activities among policymakers, the business community, the media and the general public. To achieve this we cooperate closely with representatives from the areas mentioned above as well as universities and national and international associations.

BVK is a voice that is heard. Every new member makes that voice louder. [Find out more...](#)
